

COMPACT, HIGH-VOLUME EDGER

PRO-E 600

The Pro-E™ 600 compact edger combines productivity with the highest level of precision, versatility, robustness and speed. It offers an easy and cost-effective integration into any lab configuration and is perfectly suited for jobs that require specialty edging and mountings.

A lab manager says:

"The high-wrap and high-curve jobs have been coming off the Pro-E edger on point with all first cuts. We have been doing all the challenging jobs on the Pro-E edger with great results."
