

DRIVE TRAFFIC THROUGH AWARENESS OF
VISUAL PERFORMANCE AND LIGHT SENSITIVITY

VISIOSMART 500
AUTOMATIC VISION CHECK

VISIOMART 500

UNIQUE STANDALONE SELF-DIRECTED DIGITAL VISION SCREENER

TESTING BY AGE AND LIGHTING CONDITION

- **Comprehensive tests:** acuity, color, fusion, contrast, peripheral vision
- **Four preprogrammed protocols:** ages 7 to 20, 21 to 43, 44 to 55, and above 55
- **Night vision:** acuity test in lower luminosity and various contrast conditions to recommend an anti-reflective coating
- **Glare protection:** glare recovery and radial glare acuity tests to suggest polarized lenses.

TOUCH PAD WITH SELF-DRIVEN, EASY-TO-USE INTERFACE

- **Workflow optimization:** additional health service to optimize customers' wait time
- **Time-saving:** text-to-speech technology available in 10 languages
- **Easy delegation:** pre-programmed tests and user-friendly interface
- **Connected device:** results electronically recorded and summarized

USER-FRIENDLY SUMMARY REPORT

- Comprehensive report based on the age group with color-coded assessments
- Supporting discussions on sun solutions and photochromic lenses

VISIOMART 500 BENEFITS

- Drive traffic through consumer-driven vision check.
- Assess light sensitivity in various environmental conditions.
- Promote lens solutions that address glare concerns such as photochromic, anti-reflective coating, and sun lenses.
