in Light Therapy  
and Digital  
Imaging

# DIGITAL IMAGING SOLUTION

me-check®

## Digital Imaging

- Leverages complex algorithms for easy and repeatable screening
- Both eyes tested via 2D/3D meibography
- Average eye test conducted within 5 minutes
- Results set the course for effective treatment of the root causes of inflammatory conditions

# LIGHT THERAPY DEVICES

epi-c plus®

## Powerhouse with both OPE® IPL AND LM® LLLT

- Features both of our core technologies, Optimal Power Energy® Intense Pulsed Light (OPE IPL) and Light Modulation® Low-Level Light Therapy (LM LLLT)
- Optimal, non-invasive treatment of inflammatory conditions in the facial area, including the periorbital area
- Durable stainless steel body with an upgradable operating system
- Safe for most skin types on the Fitzpatrick scale
- Low cost per patient, fast ROI, and high satisfaction

equinox®

## Photobiomodulation Champion

- Focusing on the unique benefits of our LM LLLT technology
- Indicated for the application of localized heat on the facial area
- Complete and direct treatment
- Totally painless
- Quick and easy
- Low cost per patient, fast ROI, and high satisfaction
