

# Unlock Growth Potential with epi-c plus®

It's time to integrate the innovative solution  
for **chronic inflammation** into your practice.

## DISCOVER OUR PLAYBOOK!

Explore the world of **epi-c plus®**  
and uncover how it improves chronic  
inflammation treatment.

Discover the value of **Optimal Power  
Energy® IPL** and **Light Modulation®  
LLLT** technologies.

Plus, find practical tips on leveraging  
marketing materials to enhance your  
practice and increase revenue.

---

Let's elevate your  
practice together!

# Experience the Healing Touch of Light

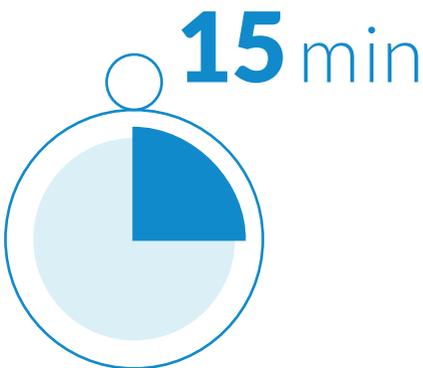

Elevating chronic inflammation  
management with epi-c plus®

epi-c plus® is our flagship solution featuring both our core technologies, Light Modulation® LLLT and Optimal Power Energy® IPL, for an optimal, non-invasive treatment of most inflammatory conditions.

Hardware and software work hand in hand to provide effective, painless care to patients, whilst being extremely easy to program and operate.

It is intuitive, easy to use and with a small footprint.

Painless, non-invasive,  
and quick treatments.

Each session lasts just 15 minutes,  
seamlessly fitting into your busy  
schedule.

Transform your practice with this  
essential, time-saving tool.

# Discover the power of light: Maximum convenience, exceptional value

## LM<sup>®</sup> LLLT

LM<sup>®</sup> LLLT, a pioneering light-based photobiomodulation technology, stems from NASA's innovative Low-level Laser Therapy for treating astronaut wounds in space. Its simplicity benefits both operators and patients, offering unmatched convenience. **LM<sup>®</sup> LLLT excels in treating inflammation and age-related signs**, providing safe, effective therapy that breaks the cycle of inflammation.

Its intuitive, non-invasive nature ensures ease of use and safety. Four key elements guarantee its efficiency: **high-power emission on the skin, minimal energy dispersion, specific LED light management, and emission in both continuous and pulsed modes**. LM<sup>®</sup> LLLT patented photobiomodulation technology –it works by triggering endogenous heating, stimulating ATP production.

## Light Modulation<sup>®</sup> LLLT

- Enhances energy production
- Accelerates cellular activity
- Alleviates inflammation
- Balances antioxidants
- Stimulates natural healing processes

# Discover the power of light: Maximum convenience, exceptional value

## OPE® IPL

OPE® IPL is our patented Intense Pulsed Light technology. Designed as a polychromatic light whose thermal impulses are calibrated through software to always be emitted at just the right intensity, OPE® IPL provides an extremely high degree of safety and effectiveness.

OPE® IPL is the only pulsed light in the world allowing for usage without any protective gel.

This is possible thanks to the patented, software-enabled technology providing a light impulse that's emitted at just the right frequency, every time, throughout every beam. This provides both operators and patients with an invaluable asset: the convenience of an exceptional, frictionless experience.

Safe, quick.  
Protective gel free.

Optimal Power  
Energy® IPL

- Improves blood circulation
- Disperses blood vessels
- Anti-inflammatory cytokine release
- Frictionless experience

# Why epi-c plus<sup>®</sup> makes the difference

Patented Optimal Power Energy<sup>®</sup> IPL and Light Modulation<sup>®</sup> LLLT technologies seamlessly **working together**

---

**Easy and safe**

---

**Upgradable system** offering unlimited growth potential

---

**Plug&play—it doesn't require the operator to be constantly present during the treatment**

---

**Easily integrates** into your existing workflow

Integrating epi-c plus<sup>®</sup> into your practice ensures your patients receive the solution to their frustrating condition. Embracing cutting-edge light therapy not only meets rising demand but also offers an exciting chance for practitioners to innovate, diversify, and significantly expand their practices.

This addition can enhance cash flow and overall practice efficiency, marking a pivotal step towards comprehensive patient care and practice growth.

# Safe and Quick Treatments that Integrate into Your Workflow

epi-c plus® offers intuitive and safe procedures. Each treatment is a brief **15-minute session**, delivering quick and noticeable results to your patients in just a few sessions. It's **fast, painless**, and provides **immediate relief**, ensuring **ease and safety** for both operators and patients. Plus, it's **plug-and-play**, freeing up operators to attend to other tasks during treatment.

## Seamless Integration

**Incorporating epi-c plus® into your practice is effortless**, allowing your staff to seamlessly provide care and relief to patients without disruption to daily activities.

**Quick and intuitive** prep procedure, **manageable by your technician or nurse**

---

Treatment **doesn't require the operator to be constantly present during the treatment**

---

Staff can handle scheduling and **post-treatment follow-ups**

---

**Short treatments** easily scheduled between other procedures

# Getting Started

## Connecting with Patients: Strategies for Effective Outreach

To ensure your patients are well-informed about chronic inflammation and are aware of the benefits of **epi-c plus<sup>®</sup>**, **LM<sup>®</sup> LLLT** and **OPE<sup>®</sup> IPL**, we highly recommend:

1

Incorporate **video** screens to showcase current marketing content **throughout your practice**, enhancing patient education and engagement.

2

Provide **informative brochures** and display signage detailing chronic inflammation and its treatment options to **ensure patient awareness and understanding**.

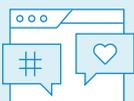

3

**Introduce new treatments to your current patient base by leveraging your communication channels** such as newsletters, social media, and website announcements.

4

**Empower your staff to daily engage with patients**, discussing the benefits of **epi-c plus<sup>®</sup>**, **LM<sup>®</sup> LLLT**, and **OPE<sup>®</sup> IPL** to ensure comprehensive patient understanding and satisfaction.

5

**Integrate links to your social media** profiles across your **website**, **newsletters**, and **emails**, and actively participate in conversations about chronic inflammation and its management using **epi-c plus<sup>®</sup>**, **LM<sup>®</sup> LLLT** and **OPE<sup>®</sup> IPL**.

## Patients' Education

Empower Your Patients: **Explore the Benefits** of **epi-c plus<sup>®</sup>**, **LM<sup>®</sup> LLLT** and **OPE<sup>®</sup> IPL**

We're dedicated to assisting you in effectively promoting epi-c plus<sup>®</sup>, LM<sup>®</sup> LLLT, and OPE<sup>®</sup> IPL to your patients, providing promotional materials and marketing support tailored to boost your growth and guide you toward success.

Ensure you present our innovative solutions to your patients in the best possible way by:

- Clearly **explaining the advantages of epi-c plus<sup>®</sup>, LM<sup>®</sup> LLLT and OPE<sup>®</sup> IPL** for effectively managing chronic inflammation
- Offering a **comprehensive treatment plan**
- Setting **realistic expectations**
- Listening to your patients and **understanding their concerns to provide tailored assistance**

# Elevate Your Practice with Comprehensive Support

Join our comprehensive support program.  
Gain access to **marketing packages designed to boost exposure** and drive sales for practices incorporating epi-c plus<sup>®</sup>, LM<sup>®</sup> LLLT and OPE<sup>®</sup> IPL.

Our support programs include:

- **Extensive marketing materials**, including presentations, patient brochures, videos, signage materials for your practice and more
- **Strategic guidance** for **social media** posts
- **Scientific Community**, to grow your knowledge and connect with others utilizing the technology

**Don't miss this opportunity  
to elevate your practice!**

# Elevate Your Practice with Comprehensive Support

Enroll in our comprehensive support program and implement our recommendations to **enhance visibility and increase sales.**

## FOR YOUR PATIENT

 **epi-c plus® (IPL + LLLT)**  
INFORMED CONSENT

Dear Patient,

Shortly, you will get benefits from an innovative treatment with the epi-c plus® (IPL + LLLT), a light modulation device.

The following information is intended:

- Inform you about the treatment technique through CPT® IPL and Light Modulation® LLLT technologies;
- Verify the absence of contraindications related to the use of these technologies.

If all conditions are met, any questions have been directed to the Doctor and answered to your satisfaction, and after your informed consent, the Doctor agrees to perform the treatment safely and effectively.

**THE TREATMENT**

CPT® IPL is a light treatment that uses the thermal effects to soothe the tissue, remove their normal activities, and reduce the production of melanin.

Light Modulation® LLLT is a non-invasive technology of photomodulation (light) used for many years in various fields of medicine (dermatology, dentistry, etc.). The emission of light at a particular wavelength triggers the production of ATP and stimulation of fibroblasts to produce collagen and elastin.

**CONTRAINDICATIONS**

The treatment is contraindicated in the following cases:

- Pregnancy;
- Lactation;
- The presence of medical devices on the treated area;
- Dermatitis, infection or wounds.

**WARNING:** If taking medications such as a photosensitizing drug, anti-inflammatories, anticoagulants, and steroids, inform your doctor before the treatment.

CPT® IPL is not recommended for use on dark skin (Fitzpatrick's scale) due to the potential for unwanted effects.

Light Modulation® LLLT is not recommended to be used on thin or sensitive skin, such as saggy or stretch marks, as it may result in burning.

If having contraindications, such as anti-inflammatories, anticoagulants, or any other, please notify your doctor.

**CURRENT MEDICATIONS**

\_\_\_\_\_

\_\_\_\_\_

I have read and understand the risks and benefits of CPT® IPL and Light Modulation® therapy and therefore I authorize the Doctor to perform the treatment.
