NEKSIA the redesign of the popular Kappa edging series

2024

ES RANGE the latest innovation launched

70 YEARS OF SATISFIED CUSTOMERS:

“ We have thoroughly enjoyed our Essilor Instruments edging systems. They are easy to operate, and our technicians mastered them fairly quickly.

Great job to Essilor Instruments for creating equipment that offers valuable rewards and returns.

Our in-house lab has been a wonderful asset for our bottom line but more importantly, it has improved our patient satisfaction immensely! Thank you! ”

- The Optical Shop of WA Inc., Shelton, WA
