

# DISCOVER A NEW PARADIGM IN LIGHT THERAPY: EPI-C PLUS®

Featuring both **Light Modulation® LLLT** and **Optimal Power Energy® IPL technologies**, to deliver effective, painless care to maximize patient satisfaction and elevate your practice revenue.

*My patients who were looking for a non-invasive treatment of inflammatory conditions in the periorbital and facial area, have seen incredible improvements with the use of the EPI-C Plus® OPE® IPL & LM® LLLT. As awareness of light therapy grows, more patients are seeking it out, and the results speak for themselves. These therapies address the root causes of their discomfort, and it's so rewarding to offer a painless solution that not only relieves symptoms, but also enhances their quality of life!*
