

ES TOWER

Compact by design. Essential by function.

An ergonomic storage tower
for precision workspaces.

1. Built around optical flow

ES Tower centralizes all blocking and centering accessories—pads, blocks, and tools—into a single, compact unit. Every element is within reach, helping eye care professionals maintain a clean, efficient workspace that reflects their precision and expertise.

2. Designed for spatial harmony

Aimed to fit perfectly between the tracer and the edger, ES Tower optimizes the workspace without adding clutter. Its ergonomic form and aesthetic coherence with the ES™ range ensure both visual harmony and operational comfort.

3. Crafted for everyday efficiency

With dedicated dispensers, integrated tool holder, and multi-size block reservoirs, ES Tower transforms storage into a performance advantage—saving time and enhancing focus.
