

Essilor Instruments is a leading provider of advanced technology and classical lane equipment for your clinical eye care practice as well as state-of-the-art finishing equipment for your optical business.

We provide products and services to support your practice so you can provide the best patient experience and achieve the best patient outcomes.

In addition to being a manufacturer of premium ophthalmic equipment, Essilor Instruments is also a national distributor of equipment brands from manufacturers including Haag-Streit, Reichert, Keeler, and Optopol, with the added benefit of differentiated after-sales service and support.

We sell new and certified pre-owned equipment. Our equipment refurbishing center provides peace of mind when choosing to purchase a previously owned instrument.
